PAINT SPRAY GUN

Code: MM PRE 95066709 Complete unit*

Specifications

- Gas unit 97 g, propellant 58 g, usable for up to 16 oz. (500 ml) liquids
- Spray pressure 4,4 bar
- Product container 6 oz. (170 ml), reusable
- Viscosity 17 sec (DIN 53211, 4 mm diameter)

*Gas power unit, glass jar, straw can be sold separately, too.

SMOOTH FINISH PAINTS - DIRECT TO RUST

WOODSKIN

- Flexible wood oil/varnish hybrid that acts like a skin for your wood
- Natural Teak colour
- Microporous properties
- Water repellent
- Minimal maintenance requirements
- Suitable on all types of wood, including teak and ikoro

Area Above the waterline
Finish/Sheen: Satin
Pack sizes: 750 ml, 2.5 Lt

Substrates: Wood

Code: MM INT YVC316

International

SCHOONER GOLD

- Advanced UV technology, longest-lasting one-part varnish
- Exceptional deep gloss and colour are retained over the lifetime of the coating
- Sand between every other coat
- Traditional amber colour
- Use without thinning in warm/higher temperature climates

Area Above the waterline
Finish/Sheen: High Gloss
Pack sizes: 750 ml, 2.5 Lt

Substrates: Wood

Code: MM INT YVA500

International.

SCHOONER

- Traditional tung-oil based gloss yacht varnish for classic yachts
- Easy and silky application
- Deep, rich gloss
- Warm golden colour
- Excellent UV protection
- For interior and exterior use
- Excellent water resistance, superior self-leveling properties.

Area Above the waterline
Finish/Sheen: High Gloss
Pack sizes: 375 ml, 750 ml
Substrates: Wood

Code: MM INT YVA086

International.

ORIGINAL

- Traditional, general purpose gloss varnish
- Good flow, flexibility and gloss retention
- High clarity finish for light colour woods
- Interior, exterior and over existing varnish

Area Above the waterline
Finish/Sheen: Full Gloss
Pack sizes: 750 ml
Substrates: Wood

Code: MM INT YVA202

International.

YACHT PRIMER

- Conventional one-part primer for use above the water
- Quick drying, with anticorrosive properties
- Pigments contain aluminium flake to provide an anti-corrosive protective barrier

Area Above the waterline
Finish/Sheen: Matt
Pack sizes: 750 ml, 2.5 Lt
Substrates: Aluminium, Steel, Wood

Code: MM INT YPA275

International.

INTERPROTECT

- Quick drying, easy to apply, two-part epoxy primer
- Offers excellent anticorrosive protection
- Can be used as an antifouling tie-coat over existing epoxy primers

Area Above and below the waterline
Finish/Sheen: Matt
Pack sizes: 750 ml, 2.5 Lt, 5 Lt
Substrates: Aluminium, Steel, Wood

Codes: MM INT YPA403  Grey
 MM INT YPA400  White

✕.International.

VC TAR2

- Osmosis defence for GRP and anticorrosion barrier for metal
- Advanced self-levelling formulation requires no sanding between coats
- Smooth surface – ideal primer base for antifoulings

Area	Below the waterline
Finish/Sheen:	Semi Gloss
Pack sizes:	1 Lt, 2.5 Lt
Substrates:	Aluminium GRP/FRP Lead Steel Carbon Fibre Cast Iron

Codes: MM INT YEA728  Off White
MM INT YEA729  Black

✕.International.

THINNER NO.1

- A general purpose thinner and equipment cleaner, for use with one-part paints and varnishes

Area	Above the waterline
Finish/Sheen:	Not Applicable
Pack sizes:	500 ml, 1 Lt

Code: MM INT YTA800

✕.International.

THINNER NO.3

- Typically used with antifouling paints (excluding Micron® Optima and VC® products)
- Also used to aid with the spray application of International one-part varnishes

Area	Below the waterline
Finish/Sheen:	Not Applicable
Pack sizes:	500 ml, 1 Lt

Code: MM INT YTA085

✕.International.

THINNER NO.7

- Formulated for use with epoxy type products

Area	Above and below the waterline
Finish/Sheen:	Not Applicable
Pack sizes:	1 Lt

Code: MM INT YTA061

✕.International.

THINNER NO.9

- For use with two-part polyurethane products

Area	Above the waterline
Finish/Sheen:	Not Applicable
Pack sizes:	1 Lt

Code: MM INT YTA006

WATERTITE

- Quick drying epoxy filler suitable for use on GRP, Metals and rigid Wood constructions
- It does not shrink
- Extremely water resistant
- Suitable for osmosis damage repairs
- Fill up to 20 mm without sagging
- High strength and adhesion properties
- Simple 1:1 mixing ratio for easy measurement of components
- Super-smooth

Area Above and below the waterline
Finish/Sheen: Matt
Pack sizes: 250 ml, 1 lt

Code: MM INT YAV135

Inquire at info@mansuetomarine.it for the full range of International Yacht Paint products: antifoulings, primers, undercoats, finishes, thinners & solvents.

JOTAMASTIC SMART PACK

Product type: Anticorrosive coating
Area of use: Marine: outside hull, exterior and interior areas, including water ballast tanks recommended for offshore environments, refineries, power plants, bridges, buildings, mining equipment and general structural steel
Protective:
Substrate: Carbon steel, galvanised steel, stainless steel, aluminium, concrete and a range of aged coating surfaces

- Designed for brush and roller application
- 1:1 mixing ratio
- Surface tolerant for maintenance and repair

Code	Description
MM JOT ACCT00	Jotamastic Smart Pack Comp B
MM JOT ACS038	Jotamastic Smart Pack Grey 38 Comp A
MM JOT ACS1013	Jotamastic Smart Pack Off White Comp A

TANKGUARD DW

Product type: Two-part epoxy tank coating
Area of use: Specially designed for drinking water tanks, can also be used in cases where it is of major importance that nothing will leak out from the paint and contaminate cargo
Substrate: Suitable for properly prepared carbon steel, stainless steel and concrete substrates

- Potable water/drinking water approvals – BS 6920
- Easy to apply with airless spray
- Smooth surface

Code	Description
MM JOT ANKDW15	Jotun Tankguard DW A+B 15LT

ALL JOTUN PRODUCTS RANGE AVAILABLE ON REQUEST

- ANTIFOULINGS
- TOP COATS
- HARDTOPS (FLEXI-XP)
- PRIMERS

CLIPPER CLEAR GLOSS VARNISH U.V.

Topcoat, one-component glossy varnish, of polyurethane nature. The high light fastness and the excellent resistance in the marine environment make it especially suitable for a finish with a one-component paint process in the yachting field. Suitable for painting above the waterline (upper works).

Code: MM STP S65302

Colour

Transparent amber-coloured

Characteristics

- Good resistance in the marine environment
- Good durability
- Very good flow
- High gloss

Specific weight (part A): $0,93 \pm 0,03$ g/ml

CLIPPER CLEAR SATIN VARNISH U.V.

Topcoat, one-component satin varnish, of polyurethane nature. The high light fastness and the excellent resistance in the marine environment make it especially suitable for a finish with a one-component paint process in the yachting field. Suitable for painting above the waterline (upper works).

Code: MM STP S65303

Colour

Transparent amber-coloured

Characteristics

- Satin aspect
- Good resistance in the marine environment
- Very good brushability
- Very good flow

Specific weight (part A): $0,91 \pm 0,05$ g/ml

CLIPPER WHITE GLOSSY TOPCOAT

One-component white glossy topcoat, of polyurethane nature. Suitable for painting above the waterline (upper works).

Colour

Available in the Clipper colour range.

Characteristics

- Very good resistance in the marine environment.
- High light fastness.
- Excellent flow.
- High gloss.

Specific weight (part A):
white and derived colours: $1,20 \pm 0,1$ g/ml
colours: $1,00 \pm 0,1$ g/ml

Code: MM STP S + colour code

CLIPPER WHITE SATIN TOPCOAT

One-component satin polyurethane topcoat. Especially suitable for boat interiors.

Colour

Satin white

Characteristics

- Satin finish
- Resistance to yellowing
- Very good hardness

Specific weight (part A): $1,32 \pm 0,05$ g/ml

Code: MM STP S30350

ISOFAN MARINE ACRYLIC UV FILTER CLEARCOAT

Two-components high gloss clearcoat for the repainting of Yachts. Formulated with modified acrylic resins assuring the highest levels of weather resistance and workability. Its high flow properties make this finish especially suitable for the professional painting of large surfaces in Yacht, Super Yacht and marine industries.

Code: MM STP SM00400

Colour

It is colourless and is applied as a finishing coat on the matt basecoat of the ISM5 ISOFAN MARINE 2K BASECOAT series suitably dried in order to allow gloss and weather resistance.

Characteristics

- Excellent depth of gloss
- Excellent durability against the marine environment and sunlight (it contains UV Absorber)
- Easy application
- Easy polishing
- High coverage

THINNERS

277

Traditional thinner for brush application of 1K topcoats, fillers, primers, clearcoats and polyurethane enamels.

Application
By brush.

Code: MM STP 570020

Colour

Transparent

Characteristics

Specific weight: 0.820 g/ml

Mixing ratio

Use according to the mixing ratio of the product technical data sheets where its use is foreseen.

6209

Thinner for spray application of one-component topcoats, fillers, primers, clearcoats and polyurethane enamels.

Application
By spray.

Code: MM STP S70110

Colour

Transparent

Characteristics

Specific weight: 0.855 g/ml

Mixing ratio

Use according to the mixing ratio of the product technical data sheets where its use is foreseen.

911

Thinner for spray and brush application of two-components polyurethane products.

Application
By brush and by spray.

Code: MM STP 570060

Colour

Transparent

Characteristics

Specific weight: 0.910 g/ml

Mixing ratio

Use according to the mixing ratio of the product technical data sheets where its use is foreseen.

INOX 18/10 AISI 316

- Anticorrosive coating for ferrous and non-ferrous metals protection.
- High resistance to severe weather conditions, abrasions, scratches.
- Suitable for touch-ups and finishing of surfaces like steel, iron, zinc, aluminium (even when oxidized or after cutting and welding)
- Aerosol 400ml

Code: MM CFG SO700

ANTI-RUST ACRYLIC PRIMER

- Anti-rust acrylic grey primer for metals
- Pre-treatment for CFG Easy Acrylic Colours
- Aerosol 400ml

Code: MM CFG SE0700
MM CFG SE0710 (acrylic primer for plastic surfaces)

1950 NITRO THINNER TOP (ANTI-MIST)

High quality anti-mist nitro thinner with medium/slow evaporation speed, excellent solvency, fair anti-bleaching power, good paint flow, used primary in the metal structural and wood sectors.

Code	Size
MM MLT 1950-1	1 Lt
MM MLT 1950-5	5 Lt

1888 WHITE SPIRIT

Turpentine for thinning oil-synthetic paints and enamels, synthetic paints, rust-preventers, waxes. Product with good solvency for oils and greases. Characteristic mild odor. Used for cleaning on the mechanics industry.

Code	Size
MM MLT 1888-1	1 Lt
MM MLT 1888-5	5 Lt

1800 SYNTHETIC THINNER

Thinner for synthetic, oil-synthetic and rust-proofing paints and tars, dissolves waxes and removers protective silicone coats. Good solvency, mild odor, medium-low evaporation speed, enhances the final gloss of the paint.

Code	Size
MM MLT 1800-1	1 Lt
MM MLT 1800-5	5 Lt

1600 ACETONE

High Quality acetone: excellent solvent for greases, oils, waxes, paints, varnishes and rubber based sealants. Optimal also as degreaser for metal, wood, marble, plastic surfaces and as stain remover.

Code	Size
MM MLT 1600-1	1 Lt
MM MLT 1600-5	5 Lt

3665 UNIVERSAL PAINT STRIPPER

Removes any kind of paints and varnishes from surfaces like wood, metal, walls. Mainly indicated for old paints onboard removal.

Code	Size
MM MLT 3665-750	750 MI
MM MLT 3665-4	4 Lt

**1512 POLYURETHANE THINNER TOP**

Thinner for polyurethane glossy and satin coats and primers.
High solvency. It is also used to clean painting equipment like brushes and paint guns.

Code	Size
MM MLT 1512-1	1 Lt
MM MLT 1512-5	5 Lt

**1109 ACRYLIC THINNER**

Generic acrylic thinner made of pure, high quality raw materials. Specific for air and medium-temperature oven-dried acrylic paints.

Code	Size
MM MLT 1109-1	1 Lt
MM MLT 1109-5	5 Lt

**1110 EPOXY THINNER**

Thinner for epoxy glossy and satin topcoats and primers.
Also used as pain equipment cleaner.
Made of high quality raw materials, good solvency and low viscosity assure the final gloss of the paint.

Code	Size
MM MLT 1110-1	1 Lt
MM MLT 1110-5	5 Lt

**1540 SILICON REMOVER**

Antisilicone solvent. Specific product for removing waxes and silicone protective coatings from body works. Medium evaporation speed. Practically odorless. Also used to thin synthetic enamels and paints.

Code	Size
MM MLT 1540-1	1 Lt
MM MLT 1540-5	5 Lt

**169A ETHYL ALCOHOL 90°**

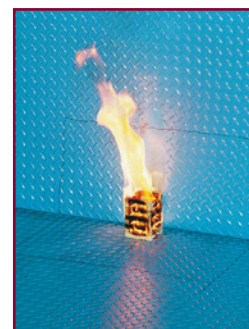

Used as degreaser for metal, wood, marble, plastic surfaces and fabrics.
It also acts as a thinner when an alcohol paint thinner is required.
Medium-high evaporation speed.

Code	Size
MM MLT 169A-1	1 Lt
MM MLT 169A-5	5 Lt
